# New York Ground Snow Load Report

Site Data and Search Results

Latitude: 43.1501

Longitude: -75.1863

Elevation: 1019.1 ft

Geolocation: 5980 Walker Rd, Utica, NY 13502, USA

Zone: 70 psf
(1019.1 ft. > 1000 ft.)
$\mathbf{P_g} = P_o + 0.02(A-A_o) = \mathbf{70.4\ psf}$

*Ground snow loads derived from Figure 1608.2 of the 2020 Building Code of New York State: Chapter 16, Section 1608. Local codes and ammendments may govern, verify with local building department or jurisdiction.

**When using Figure 1608.2 for sites at elevations above 1,000 feet (304 m), the ground snow load shall be increased from the mapped value by 2 psf (0.095 kN/m2) for every 100 feet (30.48 m) above 1,000 feet (304 m). Site-specific case studies may be made in lieu of snow loads in Figure 1608.2 or ASCE 7-16.
