<sup>\*</sup>Values are nominal design 3-second gust wind speeds in mph at 33ft above ground for Exposure C category.

<sup>\*\*</sup>Basic wind speeds derived from the ASCE 7-10 and ASCE 7-16. Local codes and ammendments may govern, verify with local building department or jurisdiction.

<sup>\*\*\*(</sup>Special Wind Region) areas, mountainous terrain, gorges, and ocean promontories should be examined for unusual wind conditions. The local authority, having jurisdiction, should be consulted for adjusted values based on higher local wind speeds. Values interpolated to the nearest 1-mph in high wind areas.
